# Bring your entire Test Team to EuroSTAR 2010

**Learn together, be inspired together, and achieve more... together!**

EuroSTAR is Europe's premier software testing event and EuroSTAR 2010 promises to be an intensive, action-packed learning experience with **12 Exceptional Tutorials, 5 World Class Keynotes & a Dedicated Test Lab, 50 individual Track Sessions including Intensive Workshops, Mini-Tracks, Fun Sessions & unlimited networking opportunities.**

EuroSTAR presents an excellent opportunity for your test team to learn from the very best minds in the industry. You can assess new techniques, try new test tools, network with other testers and most importantly get inspired!

**But don't just take our word for it, here's what past EuroSTAR delegates have to say...**

*"I have been impressed with the professionalism and knowledge of the speakers and feel that it will have a lasting effect on my organisation"*

*"EuroSTAR is my favourite conference. I believe that it will inspire my team and make them want to continue and progress their careers as testers"*

*"This was my first EuroSTAR and it has been a big inspiration! I would really like to share this experience with my colleagues"*

**Contact us to discuss the best discounts for your team, we'll make registration as hassle free as possible and ensure your team get maximum discounts, even based in different countries.**

We'll help you maximize your **FREE** places! Take a look at some of the great discounts available below. A quick call to Siobhan will give you an idea of the massive savings your company can make when you register as a team.
